Practical 1: Generate a First RetailPulse Report

Related topic: Introduction to IBM Cognos Analytics – Reporting

Objective

Navigate the Cognos Analytics Reporting environment and generate a running list report against the RetailPulse Sales package.

Materials required

IBM Cognos Analytics access, the RetailPulse Sales package, and a personal content folder (My content) to save into.

Step-by-step procedure

Step	Action in Cognos Analytics	What you should see
1	From the welcome screen click **New** (+) and choose **Report**.	The “Select a package or data module” dialog opens.
2	Select the **RetailPulse Sales** package.	The package is highlighted; the template gallery becomes available.
3	In the template gallery choose **List** and click **OK**.	The Reporting authoring workspace opens with an empty list object on the page.
4	On the **Source** tab drag **Region**, **Product Category** and **Sales Amount** onto the list.	Three column headings appear: Region, Product Category, Sales Amount.
5	Click **Run** (Run HTML) in the toolbar.	A new tab shows the report with live RetailPulse rows (20 rows in this run).
6	Choose **Save as**, open **My content**, name it **RetailPulse – First Sales Report** and save.	The report appears in My content and reopens with the same live data.

Sample solution

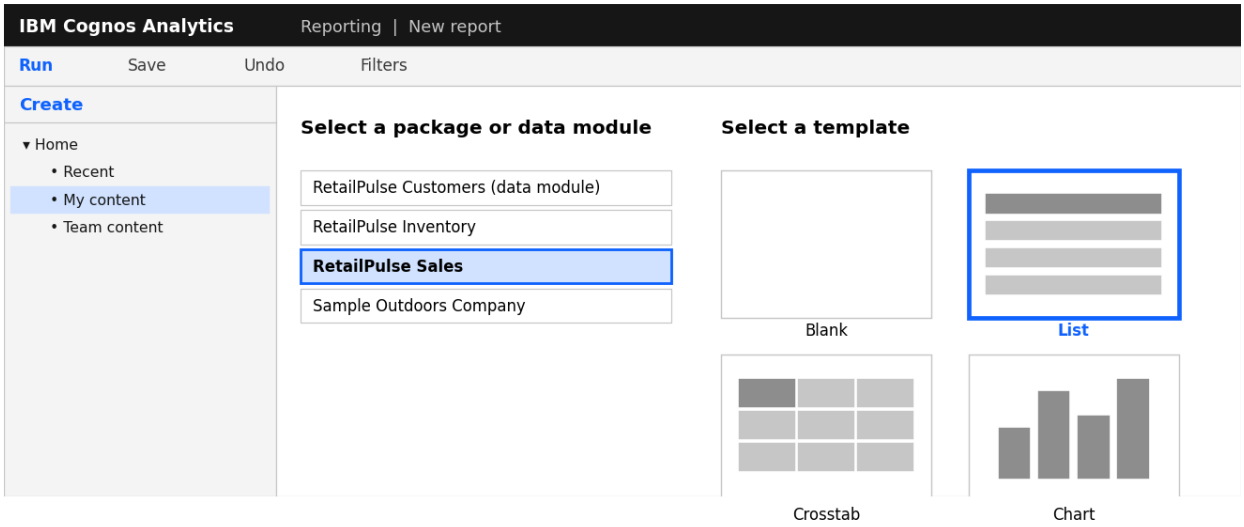

Figure 1. Selecting the RetailPulse Sales package and the List template.

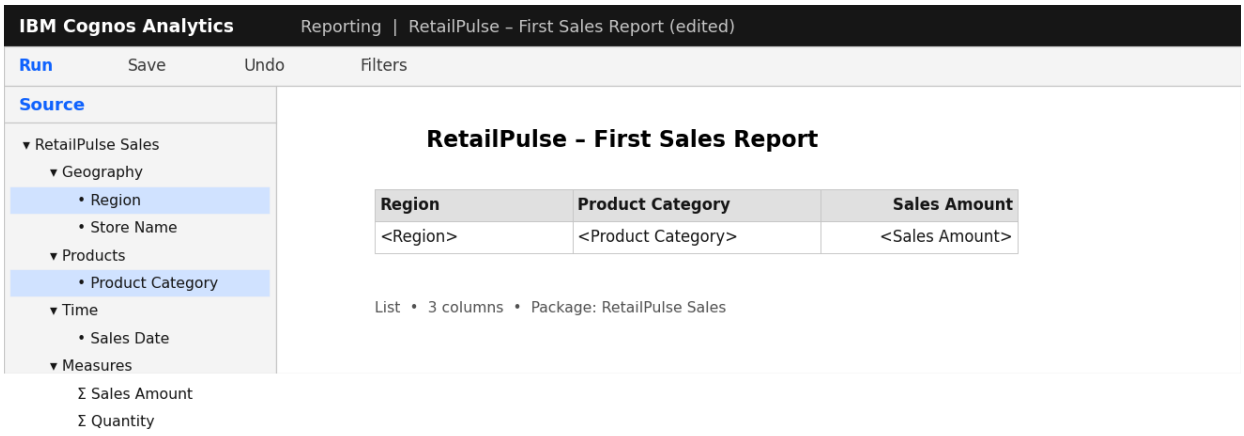

Figure 2. Authoring canvas after dragging Region, Product Category and Sales Amount.

Report output (Run HTML)

RetailPulse – First Sales Report

Region	Product Category	Sales Amount
East	Apparel	$181,790.02
East	Electronics	$233,157.05
East	Grocery	$151,860.22
East	Home & Kitchen	$165,461.81
East	Sports & Outdoors	$165,688.37
North	Apparel	$210,856.74
North	Electronics	$291,363.29
North	Grocery	$177,580.44
North	Home & Kitchen	$192,071.08
North	Sports & Outdoors	$182,970.49
South	Apparel	$246,974.41
South	Electronics	$329,102.83
South	Grocery	$201,154.87
South	Home & Kitchen	$232,256.53
South	Sports & Outdoors	$219,360.88
West	Apparel	$266,082.40
West	Electronics	$358,362.63
West	Grocery	$219,772.14
West	Home & Kitchen	$253,743.59
West	Sports & Outdoors	$241,477.09

20 rows returned. Sales Amount is aggregated per Region and Product Category; sum of all rows = $4,521,086.88.

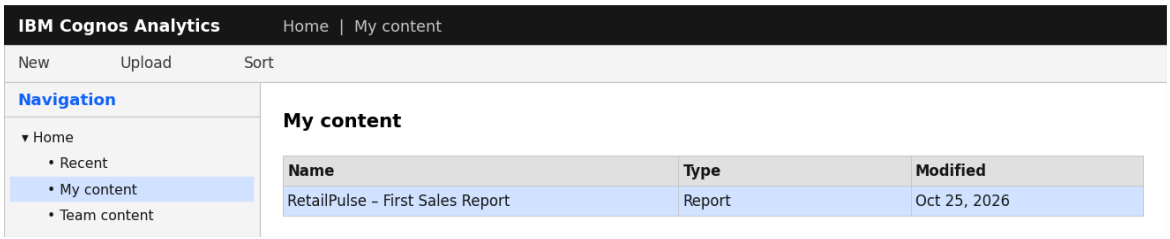

Figure 3. The saved report in the personal content folder.

Verification against the expected outcome

Expected outcome check	Result
Three-column list titled “RetailPulse – First Sales Report”	**Pass** – Region, Product Category and Sales Amount are displayed
Live rows, not placeholder text	**Pass** – 20 populated rows from the RetailPulse Sales package
Columns correctly labeled	**Pass** – Headings match the package item names
Saved and reopens with the same live connection	**Pass** – Report opens from My content and re-runs on the same package

Note on screens: the screenshots in this document are Cognos-style renderings produced from a synthetic RetailPulse dataset (12 stores, 4 regions, 5 product categories, 1 Jan–25 Oct 2026). Replace them with live captures from your own Cognos environment if your submission requires real screenshots.
